STANLEY CHIKA CHUKWUMA

Senior Product Designer & Design Engineer

Abuja, Nigeria · +234 806 968 0369 · LinkedIn · Portfolio @stanchiqa.com · stanchiqa@gmail.com

PROFILE

Senior Product Designer with **5+ years** of experience designing digital products across **fintech**, **SaaS**, **API platforms** and **financial** services. Experienced in translating complex business and user problems into scalable product experiences, from product flows and interaction design to design systems and functional interfaces. Combines product design expertise with **AI-assisted frontend development** and motion design to bridge the gap between design and production.

CAPABILITIES & TOOLS

Product Design: Product Strategy · UX Research · Interaction Design · UI Design · User Flows · Design Systems · Prototyping

Design Engineering: Design-to-Code · Functional Prototyping · Frontend Implementation · Responsive Interfaces · Component-Based UI

AI-Assisted Development: Cursor · Claude · Codex · Lovable · v0

Motion & Interaction: Motion Design · Micro-interactions · Interactive Prototyping · Rive · Jitter · ProtoPie · After Effects · Framer Motion

Design: Figma · Adobe Photoshop · Adobe Illustrator · Framer

Frontend: HTML · CSS · Responsive Design

Collaboration: Jira · ClickUp · Notion · Slack

EXPERIENCE

Product Designer (Team Lead) — FairMoney Business

Feb 2023 – Present

- Led **product design** across FairMoney Business, supporting Merchant onboarding, merchant banking, lending, savings and financial management experiences.
- Redesigned the FairMoney Business **merchant** portal, **sales dashboar**d and POS user experience.
- Designed and managed **CRM/DB** experiences for merchant management, onboarding and financial transactions.
- Led design execution across product initiatives, collaborating with product and engineering teams from discovery through implementation.
- Contributed to the transition and evolution of PayForce into FairMoney Business.

Lead Product Designer — Clime Payment

March 2026 – May 2026

- Contributed to digital product experiences for a Crossboarder payments-focused business, translating product requirements into clear, usable interfaces.

- Applied **product design** practices across user flows, interface design, interaction patterns and collaboration with **stakeholders**.

Senior Product Designer — C80 Limited (Design and Development Agency)

Oct 2025 – March 2026

- Designed product experiences for enterprise and business software, with a focus on clear workflows, information architecture and scalable interfaces.
- Worked on **DocuDrive**, a connected document intelligence platform spanning document management, search, collaboration, **digital signatures**, OCR and **secure** access control.
- Designed DocuAI experiences for users to ask questions about documents, generate summaries, extract information and clauses, and surface insights from document content.
- Worked on **WorkSTAT**, a workforce management platform covering employee records, HR workflows, attendance, payroll, recruitment, leave and performance management.
- Translated complex document and workforce workflows into structured user journeys, reusable interface patterns and intuitive product experiences.

Product Designer — Prune Payment API SaaS

Sep 2024 – Sep 2025

- Designed core experiences for a **multi-currency** API-as-a-Service platform supporting **account creation**, payouts and transfers and **transaction monitoring**.
- Owned onboarding experiences from KYC approval and dashboard setup through API key generation and sandbox testing.
- Designed scalable **payment**, **reconciliation** and operational workflows across dashboard, **test** and documentation experiences.
- Worked closely with product and **engineering teams** to translate complex API and financial workflows into accessible product experiences.

Lead Product Designer — Qwikserve (Freelance)

May 2023 – Jun 2023 · Contract

- Established a unified **design system** and designed an intuitive rider application for delivery operations.
- Designed operational dashboards for visualizing delivery performance and payout data.
- Designed tools for managing orders, tracking riders and monitoring delivery operations.

UI/UX Designer — Catapult (Freelance)

Jan 2023 – Mar 2023 · Contract

- Designed **responsive** service-ordering flows and rider applications for a delivery platform.
- Translated **user research** findings into actionable design improvements across product sprints.
- Designed interfaces focused on simplifying ordering, delivery and rider workflows.

Product Designer — PayForce

Sep 2022 – Feb 2023

- Redesigned merchant-facing banking tools and **transaction management** experiences.
- Improved **merchant onboarding** and navigation across the PayForce product ecosystem.

• Designed POS and administrative experiences supporting transaction processing and merchant operations.

UI/UX Designer — Televerse

Mar 2021 – Jan 2022 · Contract

• Led UI/UX design for privacy-focused social applications across mobile and desktop.

• Designed product interfaces and interaction models across multiple platforms.

• Developed and maintained the visual identity and product experience across the Televerse ecosystem.

DESIGN ENGINEERING

AI-Assisted Product Development

Using modern AI development tools including Cursor, Claude, Codex, Lovable and v0 to bridge the gap between product design and implementation. Focus areas include design-to-code workflows, functional prototyping, frontend implementation and rapid validation of product concepts.

Motion & Interaction

Designing motion systems, micro-interactions and interactive prototypes using Rive, Jitter, ProtoPie, After Effects and Framer Motion to communicate state, feedback and hierarchy and bring product concepts closer to the final experience.

EDUCATION & ADDITIONAL

Education:

Michael Opkara University (Umidike, Abia, Nigeria) November 2015 - September 2020 Mechanical Engineering.

Coursera Google UX certification course

Additional:

Branding· Brand Identity Design · Graphic design & Illustration
